

Quick Tips for Guaranteed Event Success

By Romey Wagner
Director of Operations

As Director of Operations at SafeAssured ID, there are a few helpful pointers that have ensured that many of our events flow efficiently from start to finish. These three tips will help your event to function smoothly and keep your equipment performing properly.

1 Don't forget to replace the small watch-type battery in the camera once each year to ensure proper function of the camera. This is very important because if this battery runs out, the camera will shut down even if it is plugged into the wall.

2 If there is finger food (i.e. popcorn or candy) being provided at the event, make sure to have hand cleaner and towels to clean up the kids before fingerprinting to keep the image clear and prevent a gooeey mess from invading the equipment.

3 Make sure to utilize the posters and cards from the syndication kit library disc to advertise and announce the event for your sponsor – do this early and often for each event!

Summer Safety Tips taken from missingkids.com

With the summer months upon us and the kids home from school, parents, guardians, and children are presented with many activities and options to occupy the time. Summer is nearly everyone's favorite time of year; that's why NCMEC has taken the opportunity to remind parents and guardians of a few helpful safety tips.

1 Be sure to go over the rules with your children about whose homes they can visit when you're not there and discuss the boundaries of where they can and can't go in the neighborhood.

2 Make sure children know their full names, address, and telephone numbers and how to use the telephone. Be sure they know what to do in case of an emergency and how to reach you using cellular or

pager numbers. Children should have a neighbor or trusted adult they can call if they're scared or there's an emergency.

3 Don't drop your children off at malls, movies, video arcades, or parks. These are not safe places for children to be alone. Make certain a responsible adult supervises your younger children at all times when they are outside and away from home.

4 Since daylight lasts longer during the summer months, be sure your children know their curfew and to check in with you if they are going to be late. If you allow your children to play outside after dark, make sure they have reflective clothing on and stay close to home.
